

K-Love serves my community and thosse all across America by supplying family-friendly programming and wholesome values to it's listeners. Without this positive and encouraging I and many others would be very negatively impacted and this is what will happen if K-Love is replaced by an LPFM. K-Love is in the publics best interest because it influences our children in a positive way and it also encourages many adults as we enjoy the good times life has to offer and the difficult times in life. It has helped me to keep a positive outlook on life during my own personal struggles. So please DO NOT replace K-Love with an LPFM.

Thank You,  
Brenda Maggard
